THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1

1. At Tószeg (O 37), during the summer of 1951, a new chemical factory went into operation. It is a branch of the Tiszamenti Vegyiművek N. V.
2. The plant employs 800 male and female workers.
3. It produces sulphuric acid and other industrial acids. In the Bottling Department, also called the "Filling Department", gases, which are not identifiable by the workers, are placed into containers. The containers are inscribed with Russian letters and are manufactured at the Rákosi Works at Csepel. When filled, the containers are dispatched to Záhony (E 90), on the Russo-Hungarian border.
4. Next to the factory, an internment camp is being built. It is believed that the deportees and the internees, who will be detained in this camp, will eventually be employed at the plant.
